

## **Title 1**

Valley View has a Title 1 program that provides supplemental services in reading and math to students who are in need of assistance in meeting the state standards. Title 1 is one of several federally mandated programs provided to Valley View School District.

The Valley View School Board, in compliance with No Child Left Behind legislation, has adopted a Complaint Resolution Process for these programs. Title 1 staff can be contacted for additional information on this process.

Our Title 1 program for the 2009-2010 school year involves eligible students in Kindergarten through Grade 5 and includes both reading and math. Mrs. Karen Spataro is our Title 1 Coordinator. Title 1 parents are invited to a Get Acquainted Night in the beginning of each year, which includes a discussion of our program at Valley View School District, various opportunities for parent involvement as well as the completion of a school - parent compact. Annually, parent notifications are sent to all parents informing them that they have the right to request teacher qualifications. In addition, Title 1 parents are invited to participate in a Parent Advisory Council, which works with staff on the updates of our parent involvement policy as well as ideas for parent nights and program improvements.
