

## Valley View High School Parent-Teacher-Student Association Recycling Program

Recycle inkjets,  
laser cartridges &  
cell phones for our  
fundraiser.

Stop throwing cash in the trash! Join us as we collect and recycle inkjet and laser cartridges and cell phones, and turn your trash into cash for the PTSA.

### Why Recycle?

Every day in the United States, each of us will send the equivalent of 4.5 pounds of trash into our landfills. Approximately 9-12% is made up of plastics. This massive pile of garbage takes up space and will need to be monitored for years to come, making it a serious problem for the next generation. Join us as we create a better tomorrow for the children, by recycling inkjet and laser cartridges and cell phones.

### How Does the Program Work?

It's simple! Collect and recycle used and empty inkjet and laser cartridges and cell phones from your home and office, and drop them in the collection box in the high school office. Our PTSA gets paid for the used cartridges and cell phones and the funds earned go toward the PTSA Scholarships given annually at the Senior Awards Program.

Stop throwing cash in the trash, recycle today!
